

The Portland Bureau of Emergency Management has established 48 Basic Earthquake Emergency Communication Node (BEECN) sites throughout the city where residents can go after a major earthquake to ask for emergency assistance if phone service is down or report severe damage or injury.

The closest BEECN site to the Elizabeth is Fields Park. More information is available at www.portlandoregon.gov/pbem/59630.

These sites are supported by volunteers. If you would like to help, go to the website above and complete the BEECN Volunteer Registration Form.
